Iron and Steel Engineer Index for 1975

LIST OF AUTHORS

A

AKERLOW, E. V.—"Economical uses of steel plant wastes," Feb., p 39
ALDERFER, J. E. and D. C. SMITH—"Sparrows Point improves energy management," June, p 42
ATKIN, R. B.—"British Steel Corp.'s 'Anchor Project'—A $600 million expansion program at Appleby Frodingham," July, p 29

B

BALKA, R. A. and F. E. DEMMON—"Power demand control—Inland's No. 1 electric furnace shop," June, p 32
BALLINTINE, O. P. and L. H. TAYLOR—"Taylor mill—a new development in light gage rolling," March, p 35
BEERS, R. L., J. A. DOUGALL and R. K. ZUCCARELLO—"Preventive maintenance in hydraulic systems by systematic routine fluid monitoring," Feb., p 53
BEIBLE, JR., W. W.—"Automatic scrap handling—Lukens Steel," Sept., p 29
BIBLE, C. E.—"Sharon Steel reduces galvanizing line downtime," Nov., p 59
BIERBACH, DIPL. ING. H. H. and H. REICHER—"Closed loop regeneration of waste pickle liquor," May, p 47
BLASKOVICH, A. L.—"New double-pour, alloy iron work rolls introduced," Dec., p 73
BROWN, D. I.—"Mini and medium steel plants of North America—A roundup," Nov., p MM-1
BROWN, J. J., D. C. DIEHL and F. J. ROCCHIO, JR.—"In-line reduction on a continuous billet caster," March, p 39
BURTON, C. E.—"Oil Shale: What's happening? What's ahead?" Sept., p 39

C

CANFOR, K. R. and D. H. SAMSON—"Fast roll change system at Dofasco," Aug., p 25
CARLSON, E. A.—"Plate production using controlled pressure pouring at Oregon Steel Mills," Dec., p 25
COATS, N. L. and E. C. PETERSON—"Rod and bar mill for high-nickel alloys," May, p 50
COLAUTTI, F. and R. FERRARI—"The Kinglor Metor Process—direct reduction using a solid reducing agent," May, p 57

D

DeFALCO, A. J.—"Biological treatment of coke plant waste waters," June, p 39
DEMMON, F. E. and R. A. BALKA—"Power demand control—Inland's No. 1 electric furnace shop," June, p 32
DIEHL, D. C., F. J. ROCCHIO, JR. and J. J. BROWN—"In-line reduction on a continuous billet caster," March, p 39
DOMINY, M. W.—"Training of electrical maintenance personnel at Burns Harbor plant"—Sept., p 35
DOUGALL, J. A., R. K. ZUCCARELLO and R. L. BEERS—"Preventive maintenance in hydraulic systems by systematic routine fluid monitoring," Feb., p 53
DUNN, L. W.—"Cold mill automation," Feb., p 42

E

EDSMAR, K.—"Experience with carbide rolls for hot rolling of rods," April, p 80
EIBE, W. W.—"Innovations in cold strip mills result in increased productivity and quality performance," June, p 50

F

FERRARI, R. and F. COLAUTTI—"The Kinglor Metor Process—direct reduction using a solid reducing agent," May, p 57

G

GHOBARAH, DR. A. A. and J. E. ROBSON—"Handling of coiled strip," April, p 64
GHOSH, DR. ING. P. C. and L. C. ROY—"Maraging steel," April, p 100
GINO, T. and M. GOCHO—"Rail production at the No. 2 large section mill at Fukuyama works," June, p 25
GOCHO, M. and T. GINO—"Rail production at the No. 2 large section mill at Fukuyama works," June, p 25
GOKSEL, DR. A. and W. M. MATHIAS—"Reuse of steel mill solid wastes," Dec., p 49
GRAHAM, T. C.—"The sales outlook for steel in 1976," Dec., p 61

H

HAASTERT, H. P., W. MEICHSNER, H. RELLERMEYER and K-H PETERS—"Operational aspects of the injection process for desulfurization of hot metal," Oct., p 71
HANDLEY, J. M. and M. I. SCHIFF—"Feasible engineering noise control for the primary metals industry," March, p 45
HEMSATH, DR. K. H. and F. J. VEREECKE—"Oxygen enriched air improves thermal efficiency," June, p 45
HERNANDEZ LATTUF, W., K. MILLER and C. A. RIECKE—"Sidor's scale handling and water treatment plant," May, p 39
HOGAN, W. T.—"New economics of steel—more steel with less capacity," Dec., p 57
HONJYO, H. and H. WATANABE—"Impact loading and vibration of the slabbing mill," May, p 31

I

IKEHATA, T.—"Treatment of waste oil at the Keihin works—Nippon Kokan," Feb., p 65

J

JEFFREYS, L. W.—"The integrated mini-mill for hot rolled strip and plate is now economical," Aug., p 65

K

KAMII, N. and H. OKUDA—"Universal joints applied to hot strip mill drive lines," Dec., p 52
KIESSLING, F. J. and E. J. STEPKO—"Construction and operation of Still high-capacity coke ovens," Nov., p 38
KOMAN, B. and P. SOROS—"Tubarao, Brazil, world's largest ore port," Jan., p 79
KOTSCH, J. A.—"France's new mini mill—The Societe des Acieries de Montereau," Nov., p. 28
KOTSCH, J. A. and C. J. LABEE—"Developments and expansion plans for the steel industry overseas," Oct., p 25
KOTSCH, J. A. and C. J. LABEE—"Developments in the Iron and Steel Industry during 1974," Jan., p D-1
KOUMP, DR. V. and P. G. SEDER—"A modern mini steel billet plant," Nov., p 30

L

LABEE, C. J.—"Ninth annual International Iron and Steel Institute conference held in Mexico City," Dec., p 65
LABEE, C. J.—"Ventilation system supplies conditioned air to crane cabs," July, p 65
LABEE, C. J. and J. A. KOTSCH—"Developments and expansion plans for the steel industry overseas," Oct., p 25
LABEE, C. J. and J. A. KOTSCH—"Developments in the Iron and Steel Industry during 1974," Jan., p D-1
LANNERT, F.—"Spherical plain bearings on oxygen furnaces," Jan., p 59
LAUTERBACH, R. E.—"Four beliefs," Dec., p 45
LOONEY, J.—"Armco's walking beam furnace improves efficiency," Aug., p 68
LYKINS, J. D.—"Maintenance of cold rolling lubricants and their effect on product quality," April, p 72

M

MANDULA, J. M., W. B. TUCKER and E. S. MONKS—"Modern method for inspecting and finishing large rounds," July, p 46
MATHIAS, W. M. and DR. A. GOKSEL—"Reuse of steel mill solid wastes," Dec., p 49
MATSUMURA, Y. and K. NISHIFUJI—"On-line automatic ultrasonic inspection of plates," April, p 75

McGUIRK, C. H.—"Computerized preventive maintenance system at The Pittsburgh & Conneaut Dock Co.," Dec., p 30
MEICHSNER, W., H. RELLERMEYER, K-H PETERS and H. P. HAASTERT—"Operational aspects of the injection process for desulfurization of hot metal," Oct., p 71
MEINHOLD, U., L. W. RUDOLF and A. QUAMBUSCH—"Kocks swing forge machine, Part 1—Operating description and application, Part 2—Utilization of swing forge at Laclede Steel," Jan., p. 48
MILLER, K., C. A. RIECKE and W. HERNANDEZ LATTUF—"Sidor's scale handling and water treatment plant," May, p 39
MONKS, E. S., J. M. MANDULA and W. B. TUCKER—"Modern method for inspecting and finishing large rounds," July, p 46
MOROCO, P. A.—"Mist lubrication in sendzimir mill bearings," July, p 36
MULLER, H. E.—"High-chrome work rolls in a modern hot strip mill," Oct., p 53

N

NIESSEN, W. R. and E. M. SMITH—"Flue gas desulfurization—facts and speculation," April, p 67
NISHIFUJI, K. and Y. MATSUMURA—"On-line automatic ultrasonic inspection of plates," April, p 75

O

OKUDA, H. and N. KAMII—"Universal joints applied to hot strip mill drive lines," Dec., p 52
OSTLING, A. and T. PAJOR—"Mechanical problems associated with Inland's 2-strand caster—start-up and operation," Feb., p 47

P

PAJOR, T. and A. OSTLING—"Mechanical problems associated with Inland's 2-strand caster—start-up and operation," Feb., p 47
PATULA, E. J.—"Experimental verification of roll eccentricity in sleeved backup rolls caused by sleeve motion," Jan., p 55
PEARCE, J.—"Q-BOP steelmaking developments," Feb., p 29
PENGIDORE, D. A.—"Application of deep bed filtration to improve slab caster recirculated spray water," July, p 42
PETERS, K-H, H. P. HAASTERT, W. MEICHSNER and H. RELLERMEYER—"Operational aspects of the injection process of desulfurization of hot metal," Oct., p 71
PETERSON, E. C. and N. L. COATES—"Rod and bar mill for high-nickel alloys," May, p 50
PETROS, A. J.—"Productioneering cold mills," Aug., p 35
PONGIA, V. J.—"Start-up of 150-ton electric arc furnace at Lukens," Dec., p 36

Q

QUAMBUSCH, A., U. MEINHOLD and L. W. RUDOLF—"Kocks swing forge machine, Part 1—Operating description and application, Part 2—Utilization of swing forge at Laclede Steel," Jan., p 48

R

REICHER, H. and DIPL. ING. H. H. BIERBACH—"Closed loop regeneration of waste pickle liquor," May, p 47
RELLERMEYER, H., K-H PETERS, H. P. HAASTERT and W. MEICHSNER—"Operational aspects of the injection process for desulfurization of hot metal," Oct., p 71
RIECKE, C. A., W. HERNANDEZ LATTUF and K. MILLER—"Sidor's scale handling and water treatment plant," May, p 39
ROBERTS, W. L.—"Mathematical model of the three-roll piercing operation," April, p 56
ROBSON, J. E. and DR. A. A. GHOBARAH—"Handling of coiled strip," April, p 64
ROCCHIO, F. J., JR., J. J. BROWN and D. C. DIEHL—"In-line reduction on a continuous billet caster," March, p 39
ROY, L. C. and DR. ING. P. C. GHOSH—"Maraging steel," April, p 100
RUDOLF, L. W., A. QUAMBUSCH and U. MEINHOLD—"Kocks swing forge machine, Part 1—Operating description and application, Part 2—Utilization of swing forge at Laclede Steel," Jan., p 48

S

SAMSON, D. H. and K. R. CANFOR—"Fast roll change system at Dofasco," Aug., p 25
SCHIFF, M. I. and J. M. HANDLEY—"Feasible engineering noise control for the primary metals industry," March, p 45
SEDER, P. G. and DR. V. KOUMP—"A modern mini steel billet plant," Nov., p 30
SHAW, D.—"Ultrasonic internal flaw detection system for slabs, blooms and billets," July, p 38
SLOAN, R. G.—"Progress on metrication in U.S. industries," Aug., p 39
SMITH, D. C. and J. E. ALDERFER—"Sparrows Point improves energy management," June, p 42
SMITH, E. M. and W. R. NIESSEN—"Flue gas desulfurization—facts and speculation," April, p 67
SMITH, DR. R. L.—"Key to the nation's success," Nov., p 55
SOROS, P. and B. KOMAN—"Tubarao, Brazil, world's largest ore port," Jan., p 79
SPITZ, H. S.—"Laclede Steel Co., A specialty pipe, rod, wire, bar and rebar producer," April, p 47
STEPKO, E. J. and F. J. KIESSLING—"Construction and operation of Still high-capacity coke ovens," Nov., p 38
STONE, J. K.—"World-wide oxygen steelmaking capacity—1974," April, p 90

T

TAYLOR, L. H. and O. P. BALLINTINE—"Taylor mill—a new development in light gage rolling," March, p 35
TENENBAUM, M.—"The anatomy of a steel shortage," Jan., p 45
TSUZUKI, S.—"Challenge to high productivity in a steelmaking complex—Muroran works," Aug., p 29
TUCKER, W. B., E. W. MONKS and J. M. MANDULA—"Modern method for inspecting and finishing large rounds," July, p 46

U

UNANGST, W. C.—"Laboratory evaluation of mist oils," Sept., p 44

V

VEREECKE, F. J. and DR. K. H. HEMSATH—"Oxygen enriched air improves thermal efficiency," June, p 45
VOELKER, F. C. JR.—"A contemporary survey of coke-oven air emissions abatement," Feb., p 57

W

WAHLSTER, PROF. DR.-ING. HABIL. M.—"The ESR process—what is its position today," March, p 29
WATANABE, H. and H. HONJYO—"Impact loading and vibration of the slabbing mill," May, p 31

Y

YOUNKIN, R. A.—"Specification techniques for sound control equipment," Sept., p 49

Z

ZUCCARELLO, R. K., R. L. BEERS and J. A. DOUGALL—"Preventive maintenance in hydraulic systems by systematic routine fluid monitoring," Feb., p 53

LIST OF SUBJECTS

A

"A contemporary survey of coke-oven air emissions abatement"—F. C. VOELKER, JR., Feb., p 57
"A modern mini steel billet plant"—DR. V. KOUMP and P. G. SEDER, Nov., p 30
"Abstracts of papers to be presented at AISE convention," Sept., p CI-21
"Air emissions abatement, A contemporary survey of coke-oven"—F. C. VOELKER, JR., Feb., p 57
"AISE Awards and Scholarships," March, p 44
"AISE Convention and Iron and Steel Exposition—Pictorial Review," Nov., p 44
"AISE Convention Chairmen," Sept., p CI-15
"AISE Convention Program," Sept., p CI-9
"AISE District Chairman, Vice Chairmen and Secretaries, 1975–1976," Oct. p 81
"AISE Dynamics Seminar," April, p 89
"AISE for 1976, Richard M. Hurd elected President—," Oct., p 80
"AISE Gearing Seminar," Jan., p 54
"AISE Kelly award winners selected," Nov., p 44
"AISE National Committees, 1975," Jan., p 68
"AISE Officers and Directors, 1975," Jan., p 64
"AISE scholarships, Five students awarded," Aug., p 70
"AISE Spring Convention—Abstracts of Papers to be Presented," April, p 118
"AISE Spring Convention—Convention Chairmen," April, p 117
"AISE Spring Convention—Pictorial Review, 1975," May, p 29
"AISE Spring Convention—Program," April, p 115
"American Iron and Steel Institute, Statistical Highlights—1965–1974," July, p 55
"'Anchor Project'—A $600 million expansion program at Appleby Frodingham, British Steel Corp.'s"—R. B. ATKIN, July, p 29
"Appleby Frodingham, British Steel Corp.'s 'Anchor Project'—A $600 million expansion program at"—R. B. ATKIN, July, p 29
"Application of deep bed filtration to improve slab caster recirculated spray water"—D. A. PENGIDORE, July, p 42
"Arc furnace at Lukens, Start-up of 150-ton electric"—V. J. PONGIA, Dec., p 36
"Armco's coke batteries scheduled for mid-1976 start-up," Sept., p 61
"Armco's walking beam furnace improves efficiency"—J. LOONEY, Aug., p 68
"Automated cut-to-length sheetline," March, p 67
"Automatic scrap handling—Lukens Steel"—W. W. BEIBLE, JR., Sept., p 29
"Automation, Cold mill"—L. W. DUNN, Feb., p 42
"Awards and Scholarships, AISE," March, p 44

B

"Backup rolls caused by sleeve motion, Experimental verification of roll eccentricity in sleeved"—E. J. PATULA, Jan., p 55
"Bar facilty, Republic Steel unveils Gary," Dec., p 69
"Bar mill for high-nickel alloys, Rod and"—N. L. COATS and E. C. PETERSON, May, p 50
"Bearings, Mist lubrication in sendzimir mill"—P. A. MOROCO, July, p 36
"Bearings on oxygen furnaces, Spherical plain"—F. LANNERT, Jan., p 59
"Billet plant, A modern mini steel"—DR. V. KOUMP and P. G. SEDER, Nov., p 30
"Biological treatment of coke plant waste waters"—A. J. DeFALCO, June, p 39
"British Steel Corp.'s 'Anchor Project'—A $600 million expansion program at Appleby Frodingham"—R. B. ATKIN, July, p 29

"Btu fuel gas process, High," Dec., p 70
"Burns Harbor plant, Training of electrical maintenance personnel at"—M. W. DOMINY, Sept., p 35

C

"Carbide rolls for hot rolling of rods, Experience with"—K. EDSMAR, April, p 80
"Caster, In-line reduction on a continuous billet"—D. C. DIEHL, F. J. ROCCHIO, JR. and J. J. BROWN, March, p 39
"Caster—start-up and operation, Mechanical problems associated with Inland's 2-strand"—T. PAJOR and A. OSTLING, Feb., p 47
"Challenge to high productivity in steelmaking complex—Muroran works"—S. TSUZKI, Aug., p 29
"Change system at Dofasco, Fast roll"—D. H. SAMSON and K. R. CANFOR, Aug., p 25
"Closed loop regeneration and waste pickle liquor"—H. REICHER and DIPL. ING. H. H. BIERBACH, May, p 47
"Coiled strip, Handling of"—J. E. ROBSON and DR. A. A. GHOBARAH, April, p 64
"Coke batteries scheduled for mid-1976 start-up, Armco's," Sept., p 61
"Coke-oven air emissions abatement, A contemporary survey of"—F. C. VOELKER, JR., Feb., p 57
"Coke ovens, Construction and operation of Still high-capacity"—F. J. KIESSLING and E. J. STEPKO, Nov., p 38
"Coke plant waste waters, Biological treatment of"—A. J. DeFALCO, June, p 39
"Cold mill automation"—L. W. DUNN, Feb., p 42
"Cold mills, Productioneering"—A. J. PETROS, Aug., p 35
"Cold rolling lubricants and their effect on product quality, Maintenance of"—J. D. LYKINS, April, p 72
"Cold strip mills result in increased productivity and quality performance, Innovations in"—W. W. EIBE, June, p 50
"Computerized preventive maintence system at The Pittsburgh & Conneaut Dock Co."—C. H. McGUIRK, Dec., p 30
"Contactless mold level and tundish controls for continuous casting," Feb., p 74
"Continuous casting, Contactless mold level and tundish controls for," Feb., p 74
"Construction and operation of Still high-capacity coke ovens"—F. J. KIESSLING and E. J. STEPKO, Nov., p 38
"Crane cabs, Ventilation system supplies conditioned air to"—C. J. LABEE, July, p 65

D

"Descale strip and rod, Microscalper—a new pollution-free technique to," Aug., p 71
"Desulfurization—facts and speculation, Flue gas"—W. R. NIESSEN and E. M. SMITH, April, p 67
"Desulfurization of hot metal, Operational aspects of the injection process for"—H. P. HAASTERT, W. MEICHSNER, H. RELLERMEYER and K-H PETERS, Oct., p 71
"Detection system for slabs, blooms and billets, Ultrasonic internal flaw," D. SHAW, July, p 38
"Developments and expansion plans for the steel industry overseas"—J. A. KOTSCH and C. J. LABEE, Oct., p 25
"Developments in the Iron and Steel Industry during 1974"—J. A. KOTSCH and C. J. LABEE, Jan., p D-1.
"Direct reduction using a solid reducing agent, The Kinglor Metor Process—"—R. FERRARI and F. COLAUTTI, May, p 57
"Dofasco, Fast roll change system at"—D. H. SAMSON and K. R. CANFOR, Aug., p 25
"Double-pour, alloy iron work rolls introduced, New," A. L. BLASKOVICH, Dec., p 73
"Drive lines, Universal joints applied to hot strip mill"—N. KAMII and H. OKUDA, Dec., p 52
"Durable slurry pumps are heart of pollution control facility at Inland," April, p 97
"Dust collecting bags, Use of Nomex Aramid," May, p 63
"Dynamics Seminar, AISE," April, p 89

E

"Eccentricity in sleeved backup rolls caused by sleeve motion, Experimental verification of roll"—E. J. PATULA, Jan., p 55
"Economical uses of steel plant wastes"—E. V. AKERLOW, Feb. p 39
"Economics of steel—more steel with less capacity, New"—W. T. HOGAN, S. J., Dec., p 57
"Electric arc furnace at Lukens, Start-up of 150-ton"—V. J. PONGIA, Dec., p 36
"Electrical maintenance personnel at Burns Harbor plant, Training of"—M. W. DOMINY, Sept., p 35
"Empire-Detroit's pollution control system comes on stream," May, p 64
"Energy management, Sparrows Point improves"—D. C. SMITH and J. E. ALDERFER, June, p 42
"Energy priorities could aggravate short steel supply," Sept., p 59
"Environmental impact data—part of Regal Tube's procurement package," July, p 61
"ESR process—what is its position today, The"—PROF. DR.-ING. HABIL. M. WAHLSTER, March, p 29
"Expansion plans for the steel industry overseas, Developments and"—J. A. KOTSCH and C. J. LABEE, Oct., p 25
"Experience with carbide rolls for hot rolling of rods"—K. EDSMAR, April, p 80
"Experimental verification of roll eccentricity in sleeved backup rolls caused by sleeve motion"—E. J. PATULA, Jan., p 55
"Exposition and AISE Annual Convention Show Guide and Program—1975, Iron and Steel," Sept., p CI-1

F

"Fast roll change system at Dofasco"—D. H. SAMSON and K. R. CANFOR, Aug., p 25
"Feasible engineering noise control for the primary metals industry"—J. M. HANDLEY and M. I. SCHIFF, March, p 45
"Filtration to improve slab caster recirculated spray water, Application of deep bed"—D. A. PENGIDORE, July, p 42
"Finishing large rounds, Modern method for inspecting and"—E. S. MONKS, J. M. MANDULA and W. B. TUCKER, July, p 46
"Five students awarded AISE scholarships," Aug., p 70
"Flue gas desulfurization—facts and speculation"—W. R. NIESSEN and E. M. SMITH, April, p 67
"Forge machine, Part 1-Operating description and application, Part 2—Utilization of swing forge at Laclede Steel, Kocks swing"—A. QUAMBUSCH, U. MEINHOLD and L. W. RUDOLF, Jan., p 48
"Four beliefs"—R. E. LAUTERBACH, Dec., p 45
"France's new mini mill—The Societe des Acieries de Montereau"—J. A. KOTSCH, Nov., p 28
"Fukuyama works, Rail production at the No. 2 large section mill at"—T. GINO and M. GOCHO, June, p 25
"Fully automated stainless steel wire cleaning line," April, p 95
"Furnace improves efficiency, Armco's walking beam"—J. LOONEY, Aug., p 68

G

"Galvanizing line downtime, Sharon Steel reduces"—C. E. BIBLE, Nov., p 59
"Gary bar facility, Republic Steel unveils," Dec., p 69
"Gas process, High Btu," Dec., p 70
"Gearing Seminar, AISE," Jan., p 54

H

"Handling of coiled strip"—J. E. ROBSON and DR. A. A. GHOBARAH, April, p 64
"High Btu fuel gas process," Dec., p 70
"High-chrome work rolls in a modern hot strip mill"—H. E. MULLER, Oct., p 63
"Hot rolled strip and plate is now economical, The integrated mini-mill for"—L. W. JEFFREYS, Aug., p 65
"Hot strip mill, High-chrome work rolls in a modern"—H. E. MULLER, Oct., p 63
"Hurd elected President—AISE for 1976, Richard M.," Oct., p 80
"Hydraulic systems by systematic routine fluid monitoring, Preventive maintenance in"—R. L. BEERS, J. A. DOUGALL and R. K. ZUCCARELLO, Feb., p 53

I

"Impact loading and vibration of the slabbing mill"—H. HONJYO and H. WATANABE, May, p 31
"Injection process for desulfurization of hot metal, Operational aspects of the"—H. P. HAASTERT, W. MEICHSNER, H. RELLERMEYER and K-H PETERS, Oct., p 71
"Inland, Durable slurry pumps are heart of pollution control facility at," April, p 97
"Inland's No. 1 electric furnace shop—Power demand control—"—R. A. BALKA and F. E. DEMMON, June, p 32
"Inland's 2-strand caster—start-up and operation, Mechanical problems associated with"—T. PAJOR and A. OSTLING, Feb., p 47
"In-line reduction on a continuous billet caster"—D. C. DIEHL, F. J. ROCCHIO, JR. and J. J. BROWN, March, p 39
"Innovations in cold strip mills result in increased productivity and quality performance"—W. W. EIBE, June, p 50
"Inspecting and finishing large rounds, Modern method for"—E. S. MONKS, J. M. MANDULA and W. B. TUCKER, July, p 46
"Inspection of plates, On-line automatic ultrasonic"—Y. MATSUMURA and K. NISHIFUJI, April, p 75
"International Iron and Steel Institute conference held in Mexico City, Ninth annual"—C. J. LABEE, Dec., p 65
"Iron and Steel Engineer index for 1975," Dec., p 99
"Iron and Steel Exposition and AISE Annual Convention Show Guide and Program—1975," Sept., p CI-1
"Iron ore requirements, Tilden Mine aids U.S.," Oct., p 87

J

"Joints applied to hot strip mill drive lines, Universal"—N. KAMII and H. OKUDA, Dec., p 52

K

"Keihin works—Nippon Kokan, Treatment of waste oil at the"—T. IKEHATA, Feb., p 65
"Kelly award winners selected, AISE," Nov., p 44
"Key to the nation's success"—DR. R. L. SMITH, Nov., p 55
"Kinglor Metor Process—direct reduction using a solid reducing agent, The"—R. FERRARI and F. COLAUTTI, May, p 57
"Kocks swing forge machine, Part 1—Operating description and application, Part 2—Utilization of swing forge at Laclede Steel"—A. QUAMBUSCH, U. MEINHOLD and L. W. RUDOLF, Jan., p 48

L

"Laboratory evaluation of mist oils"—W. C. UNANGST, Sept., p 44
"Laclede Steel Co., A specialty pipe, rod, wire, bar and rebar producer"—H. S. SPITZ, April, p 47
"Laclede Steel, Kocks swing forge machine, Part 1—Operating description and application, Part 2—Utilization of swing forge at"—A. QUAMBUSCH, U. MEINHOLD and L. W. RUDOLF, Jan., p 48
"Little study of steel and the environment, The Arthur D.," July, p 63
"Lubricants and their effect on product quality, Maintenance of cold rolling"—J. D. LYKINS, April, p 72
"Lukens, Start-up of 150-ton electric arc furnace at"—V. J. PONGIA, Dec., p 36
"Lukens Steel, Automatic scrap handling—"—W. W. BEIBLE, JR., Sept., p 29

M

"Maintenance at New Jersey Steel, Preventive," Nov., p 49
"Maintenance of cold rolling lubricants and their effect on product quality"—J. D. LYKINS, April, p 72
"Maintenance personnel at Burns Harbor plant, Training of electrical"—M. W. DOMINY, Sept., p 35
"Maraging steel"—DR. ING. P. C. GHOSH and L. C. ROY, April, p 100
"Mathematical model of the three-roll piercing operation"—W. L. ROBERTS, April, p 56
"Mechanical problems associated with Inland's 2-strand caster—start-up and operation"—T. PAJOR and A. OSTLING, Feb., p 47
"Medium steel plants of North America—A roundup, Mini and,"—D. I. BROWN, Nov., p MM-1
"Metrication in U.S. industries, Progress on"—R. G. SLOAN, Aug., p 39
"Microscalper—a new pollution-free technique to descale strip and rod," Aug., p 71
"Mini and medium steel plants of North America—A roundup"—D. I. BROWN, Nov., p MM-1
"Mini-mill for hot rolled strip and plate is now economical, The integrated"—L. W. JEFFREYS, Aug., p 65
"Mini-mill—The Societe des Acieries de Montereau, France's new"—J. A. KOTSCH, Nov., p 28
"Mini steel billet plant, A modern"—DR. V. KOUMP and P. G. SEDER, Nov., p 30
"Mist lubrication in sendzimir mill bearings"—P. A. MOROCO, July, p 36
"Mist oils, Laboratory evaluation of"—W. C. UNANGST, Sept., p 44
"Modern methods for inspecting and finishing large rounds"—E. S. MONKS, J. M. MANDULA and W. B. TUCKER, July, p 46

"Mold level and tundish controls for continuous casting, Contactless," Feb., p 74
